The 'Great Plate Mate' Number Plate Surround

How often do you wear your club t-shirt and where does it live most of the time? Not often and probably in a cupboard, right?

Increase your club's profile and raise club funds in a way that far exceeds the humble t-shirt. They come in a 'one size fits all'* so it's a lot easier to order – and about the same cost!

In the USA, clubs, teams, schools and even churches raise funds and publicise themselves by selling their own 'branded' number plate surrounds. Sit in the car behind one of our surrounds and you can't help reading it.

We can print whatever you want, club colours, logo - add your website address, let people know who and where you are - really drive your message home!

You can supply your own artwork, or we can do it for you, and we print onto vehicle grade vinyl which is uv protected and laminated. Our number plate surround fits round existing number plates – **no need to buy new number plates!**

Features
